

Town of Lansing Gas Drilling Survey

This is a survey to better understand how residents in the Town of Lansing view potential gas drilling, using High Volume Hydraulic Fracturing (HVHF).

The Gas Drilling Oversight Committee will present the results to the Town Board.

The Town of Lansing and Tompkins County sits on top of the gas-rich Marcellus and Utica Shale. The potential exists for extensive gas development and associated industrial activity in the town.

1. Do you **favor** this type of gas development in the Town of Lansing?

Yes

No

Undecided

2. Do you support **stricter local laws** to better control negative impacts associated with this type of gas drilling in Lansing?

Yes

No

Undecided

3. Do you **oppose gas drilling** using HVHF and would like to see it **banned from the town?**

Yes

No

Undecided
