Re: Reply to the 239 recommendations

Dear Mike Long:

In regards to the 239 comments from the county I've decided to remove the Norway Spruce buffer from the drawing. The county commented that the Norway Spruce is on the invasive species list. To comply with them I'd like to remove this planted buffer and use the approximately 380' of remaining farm land as a buffer to the west. I will still plant the maple tress as drawn along the road and front of the buildings. I am also aware of the needed 40,000sf of land per unit needed if I was ever to subdivide. Please let me know if you need anything from me or when the planning board meeting would be scheduled.

Thank you,
