# Lansing Center Trail

[www.lansing-pathways.com](http://www.lansing-pathways.com)

The Lansing Center Trail meanders 2.8 miles on about 140 acres of town-owned land opposite the Lansing Town Hall. It is designed as a perimeter path with a few interior loops and wonderful views of the Cayuga Lake Valley, the National Forest backbone, Connecticut Hill, and Newfield hills.

The trail will initially be used for walking, cross country skiing and snowshoeing. Phase 1 of the project opened in January, 2011.

Our goal is to develop about 4 miles of trail covering most of the perimeter of the land with spur paths leading into shaded wooded areas.

Lansing Pathways Committee (LPC) is a group of local citizens promoting the development of non-motorized recreation and transportation trails in the town of Lansing and is recognized as an official town committee. The Lansing Center Trail is LPC's first trail development project.
