ORES Permit Application No.: 23-00048

Facility Description: Applicant applied to the New York State Office of Renewable Energy Siting and Electric Transmission (Office or ORES) for a permit pursuant to Public Service Law article VIII to construct and operate a 160-megawatt (MW) solar energy facility located in the Towns of Groton and Lansing, Thompkins County, New York.

Applicant filed the application with the Office on November 3, 2023. A notice of complete application was issued on October 15, 2024 (see <https://dps.ny.gov/ores-permit-applications>, click on Project Permit Application Number 23-00048).

ORES staff published draft permit conditions on December 16, 2024. The draft permit conditions may be accessed at <https://dps.ny.gov/ores-permit-applications>, click on Project Permit Application Number 23-00048.

ORES Staff Position: On issuing the draft permit conditions, ORES staff takes the position that the proposed facility, together with the uniform and site-specific standards and conditions contained in the draft permit, would comply with applicable laws and regulations. ORES staff recommends that the Office elect not to apply, in whole or in part, any local law or ordinance that as applied to the facility is unreasonably burdensome in view of the Climate Leadership and Community Protection Act targets and the environmental benefits of the proposed facility.

Public Comment Hearing: A public comment hearing pursuant to 16 NYCRR part 1100 to hear and receive unsworn comments from the public will be held at the **Groton High School**

Gymnasium, 400 Peru Road, Groton, New York 13073, on Thursday, February 20, 2025, at 6:00 p.m.

All persons, organizations, corporations, or government agencies who may be affected by the facility are invited to attend the hearing and comment on the application and the draft permit conditions. Lengthy comments will not be accepted and instead should be submitted in writing. Equal weight will be given to both oral and written comments. To ensure that all interested persons have an opportunity to speak, the Administrative Law Judge (ALJ) may limit the time available for oral comments to three (3) minutes per person. The public comment hearing will be transcribed for inclusion in the administrative record.

The hearing location is reasonably accessible to persons with a mobility impairment. Interpreter services shall be made available to deaf persons, and English language translator services shall also be made available, at no charge for either service, upon written request to Chief ALJ James T. McClymonds, Office of Renewable Energy Siting and Electric Transmission, Empire State Plaza, P-1 South, J Dock, Albany, NY 12242, (518) 473-4590, ores.hearings@dps.ny.gov. All requests must be received no later than 4:00 p.m. on Thursday, February 6, 2025.

In the event that the in-person public comment hearing needs to be canceled, rescheduled, postponed, or conducted virtually, notification of any change will be available at the ORES website at <https://dps.ny.gov/ores>.

Issues Determination Procedure: Pursuant to 16 NYCRR 1100-8.3(b), a pre-adjudicatory issues determination procedure will be conducted by the assigned ALJ. Participation in the issues determination procedure is limited to ORES staff, applicant, and those persons or organizations requesting party status.

Filing for Party Status and Proposed Issues: Persons seeking to participate in the issues determination procedure and any subsequent adjudicatory hearing must register on the ORES Portal and file a written petition explaining whether their request is for full party status or amicus status.
